

California OES Weather Threat Briefing

Thursday, April 1, 2021
9:00 AM PST

Day 1 (Thursday): Localized elevated fire weather conditions continue across the southern California mountains this afternoon, but winds will not be as strong as recent days. Isolated dry thunderstorms are also possible over the Peninsular Ranges of southwest California this afternoon.

National Weather Service

Regional Operations Center
Salt Lake City, UT*

WEATHER KEY POINTS

04/01/21 - 04/07/21

Thursday-Wednesday

- No widespread impacts are expected today or Friday, though isolated dry thunderstorms are possible over the mountains of southwest California, which combined with gusty conditions, could lead to localized elevated fire weather conditions this afternoon
- Gusty winds and elevated fire weather concerns will return this weekend over southern California
- Warm and dry conditions are expected through the weekend, with a moderate heat risk developing over the deserts Saturday and especially Sunday as temperatures warm well into the 90s
- Next chance for precipitation arrives very late Sunday through Tuesday
